

OLIO PAGLIERINO

**for cleaning,
polishing and re-
nourishing wood**

Oil of complete vegetable origin

Teknica STRAW OIL is an oil of complete vegetal origin, widely used in the restoration sector. It is suitable for cleaning, polishing and re-nourishing the fibre, thanks to its excellent penetrating power.

In the PRECIOUS RED version, it is excellent for restoring the original color of wood and stone.

TECHNICAL DATA AND FEATURES

Appearance: liquid

Color: straw yellow / red

Odor: Typical

Flash point: >120°C

Active Substance: 100%

Solubility: insoluble in water

Density: 0.900 Kg/Lt

the neutral version, but much more so in the PRECIOUS RED version, it also lends itself as a means of darkening the tone of the wood, guaranteeing warmer shades. During maintenance, it can be used for cleaning grease or wax residues on antique furniture and for polishing: in this case, apply the desired quantity of oil on a cloth or directly on the surface to be treated, then rub until the surface does not appear dry. STRAW OIL is also indicated as a lubricant for applying pad paint and for sharpening stones.

METHOD OF USE

THE STRAW-LIGHT OIL from the Teknica range lends itself to multiple functions. For a regenerating and nourishing function, spread the oil with a lint-free cotton cloth or with a brush, on brittle wood after the paint stripping phase. Apply in a single coat and leave to penetrate for 24 hours; then reapply if completely absorbed or remove the excess. In

STORAGE

Store in a cool, well-ventilated place; keep the container closed when not in use.

Keep away from heat, open flames, sparks and other sources of ignition.

PACKAGING

5000 – 1000 - 500 – 200 ml
